PROFESSIONAL SUMMARY

Social media creative with 4+ years producing content for major consumer and tech brands, centered on creator-led storytelling and social-first video. I came up hands-on at the camera, shooting and editing short-form for Adobe's channels, and grew into building the concepts and scripts behind influencer-hosted event sizzles, formats that scaled creator content past one-off posts. I turn dense product and technical topics into accessible, platform-native stories built for TikTok, Instagram, LinkedIn, and YouTube. Off the clock I'm a creator myself, running my own jazz trumpet projects on Instagram and YouTube, which keeps me fluent in how creators actually build an audience.
